Informed Consent

It is our responsibility to fully inform you of all aspects of your treatment. Part of this includes a discussion of any potential side effects or complications. All treatments potentially can cause these reactions, and chiropractic manipulation is no different. It however, has one of the ***safest*** records of the wide range of treatments that can be used for spinal disorders.

Possible adverse effects of spinal manipulation can include soreness in the area of treatment, reactive muscle spasm, injury to the disc causing pressure on nerve tissue, fractures in weakened bone such as ribs, and injury to arteries in the neck resulting in stroke. Soreness or reactive muscle spasm or tightening are common but usually brief in reactions to treatment. The other potential complications are rare. It is best to examine the frequency of these potential complications of the other typical treatments which may be used for a spinal disorder.

Disc injury from manipulation Causing spinal cord pressure	**Neurological complication from Neck Surgery**	**Back Surgery**
1 per 100 million	1 per 64	1 per 333

Artery Injury from manipulation Causing a stroke	**Death rate from neck surgery**
1 per 1 million	1 per 145

Perhaps the most common alternative to spinal manipulation is the use of anti-inflammatory drugs. These drugs cause fairly common and potentially serious complications.

Complications associated with anti-inflammatory drug use:

Serious stomach or intestinal bleeding	**1-4 per 1,000 users**
Hospitalizations from complications	**20,000 per year**
Deaths from complications	**16,500 per year**

I have read the above and understood the risk of complication that may occur from spinal manipulation. With this understanding, I consent to treatment with spinal manipulation by Morrison Chiropractic, P.A.

Payment Policy

Thank you for choosing our practice! We are committed to the success of your chiropractic treatment and care. Please understand that the payment of your bill is part of this treatment and care. For your convenience, we have answered a variety of commonly-asked financial policy questions below. If you need further information about any of these policies please speak with one of our Front Desk Associates.

How may I pay?

We accept payment by cash, check, all major credit cards, as well as online payments.

When is payment due?

Payment for all treatments, services, and products are due at the time of the visit.

How much do I owe?

Financial responsibility is determined by your insurance company. Insurance companies will NOT promise that any information given to our office regarding your coverage is correct nor is it a guarantee of payment. Each patient is responsible for monitoring changes with respect to any payout maximums and visit limits quoted by the insurance company.

Appointment Cancellation Policy

We understand that unforeseen circumstances can arise and you may need to cancel your appointment with our office. Should you need to, we respectfully ask that you cancel your scheduled appointments at least 24 hours in advance.

Our doctors strive to be available for the needs of all of our patients. When an appointment is missed, or not cancelled within the requested time frame, another patient loses an opportunity to be seen.

Although we have always had a cancellation policy, circumstances have caused us to enforce a policy of charging for no-show appointments, and those appointments cancelled within 24 hours.

As of September 1st, 2017 there will be $50 charged for any appointment that is missed or cancelled within 24 hours.

Thank you for your understanding and cooperation as we institute this policy. This will enable us to open otherwise unused appointments to better serve the needs of all patients.
